Experience

Intern Frontend Developer, *Engausa*   *Kano, Nigeria*   01/2021 – 06/-2022

- Developed responsive and cross-browser compatible front-end code for high-traffic websites.
- Proactively researched 3rd party libraries to avoid technical debt and refactored code to adhere to best practices.
- Engaged in code reviews and provided constructive feedback to enhance team productivity.

Freelance Developer   *Remote, Nigeria*   06/2022 – 06/2023

- Delivered high-quality, SEO-optimized front-end code for web applications, meeting client specifications and exceeding expectations.
- Designed sleek and functional websites that ensured optimal user experience and client satisfaction.

Full Stack Developer, *Office Box*   *Kano, Nigeria*   06/2023 – 12/2023

- Contributed to the development of a pioneering web app for anonymous reporting of rape cases, featuring location-based assistance and a streamlined dashboard for efficient case management by authorities.
- Collaborated on an agro-based project linking farmers with investors, integrating investment tracking by crop and implementing a dashboard with wallet functionality for tracking produce and finance.

Frontend Developer, *Talents Sphere*   *Remote, Nigeria*   02/2024 – 04/2024

- Engineered and optimized front-end authentication systems, achieving a 40% reduction in user registration time and enhancing platform security for Talent Sphere Africa's automated talent-matching system.
- Transformed Figma designs into responsive frontend interfaces using modern web technologies, enhancing user engagement and enabling seamless connections across diverse African regions.

Projects Experience

- **Oryon: C**urrently developing an innovative e-commerce platform, leveraging Next.js, TypeScript, Prisma, and Planet Scale for seamless user experiences and scalable backend operations (oryon.com).
- **Shompts:** Created an AI prompting tool for the modern world to discover, create and share creative prompts using Next JS, Tailwind CSS, App-Router, Next-Auth, MongoDB, Git (shompts.com).
- **Orion-Anime:** Developed a captivating and responsive web application that allows users to explore and discover various anime shows and movies using React, Redux, React-Router, React-Icons and CSS (orion-anime.com).
- **Oryon-Admin:** Crafted a sophisticated and responsive dashboard for an e-commerce site with payment integration using Next JS, Next API Route, Typescript, Prisma, Planet Scale (oryon-admin.com).
